PIONEER

Pioneer is an Engineered Timber available in the popular Australian Species Blackbutt and Spotted Gum. Choose from two board lengths - 1820mm or 2100mm to create your desired look and you can mix and match to create a beautiful natural Australian style flooring.

Every timber floor is different, and will always vary from any images or samples with colour, grain and textural variation. The illustrated patterns and colours are only an image and not a full overview of all the different nuances within the natural unique design of a timber floor. Colour appearance can also vary depending upon the type of light under which an image is viewed and light sources where the flooring is installed. For a representative view of the surface structure and variation of a plank, take a look at the large samples on display and ask your retailer for more advice.
