TIMBER

Timber is synonymous with strength and durability.

For natural style and durability, look no further than Godfrey Hirst engineered timber floors.

With contemporary style to natural character, this impressive range of timber species has been carefully selected to complement your home.

Each high quality engineered timber floor features distinct knots and grain variation to provide authentic visual appeal.

With a 5G Insta Clic® locking system installation is simple. There is no need for nails or glue, the floor can be walked on straight away.

All Godfrey Hirst engineered timber floors feature a Wearguard® coating to keep your floor looking its best.

REGAL OAK
ASTOR

REGAL OAK

Regal Oak Handcrafted has a distressed matte finish and round edges for a rustic style. Wide boards are also available in selected hues to provide an even more luxurious and authentic look.

The stunning colours are smoked rather than stained to provide consistent colour all the way through the hardwood timber surface.

This distressed style is ideal for helping to conceal everyday wear and keep your floor looking its best.

	Micro Bevel Edges	A small V-shaped edge between boards for an authentic floorboard finish.
	Square Edges	Create a sleek and seamless floor.
Surface	Feature	Benefit
	Distressed Surface	Distressed surface boards are handcrafted to show a sought after rustic look.
	Hardwood Top	The hardwood top layer of our boards is a genuine, resandable veneer of real timber species.
Finish	Feature	Benefit
	Matte Finish	Boards with a matte finish accentuates the natural look and feel of timber.
	Satin Finish	Satin finished boards have a silky, smooth finish with a subtle shine.
	WearGuard®	WearGuard® is a hardy 7 coat polyurethane system that protects against dirt, wear and spills and makes for easy care and maintenance.
	Extreme Matte Coating	Flooring with Extreme Matte Oil will require additional maintenance please check the care and maintenance guide for more information.
Construction	Feature	Benefit
	Hevea Core	Made from Rubberwood which gives each board greater stability.

ACCESSORIES

Scotia

The Godfrey Hirst floors Scotia range has been produced to suit your timber floor, and is the perfect way to conceal the expansion gap where your newly laid floor joins skirting boards, kickboards and the walls of the room.

Timber scotia is made from real Tasmanian Oak timber and is stained to complement your new floor.

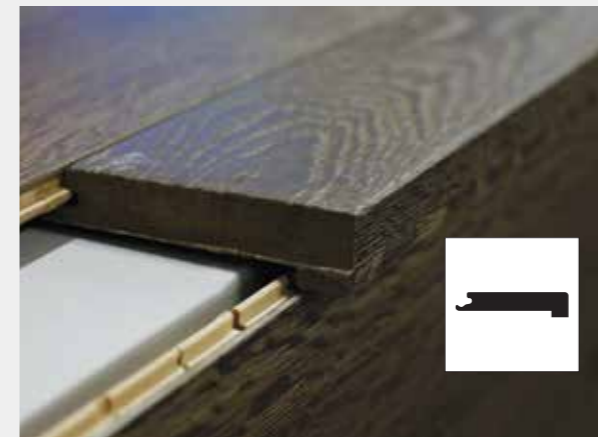

All Godfrey Hirst Scotia can cover an expansion gap of up to 15mm and are all available by the piece.

Size:

Piece: 2400 x 15 x 15mm

Box: Available by the piece

Stair Nosing

Stair Nosing is available to complete your timber floors by allowing you to incorporate your staircase for a sophisticated look.

Product is made from real European Oak timber and stained to complement the timber*.

Size:

Timber Piece: 1820 x 75 x 14mm

Box: Available by the piece

* With the exception of Naturals

CONSTRUCTION

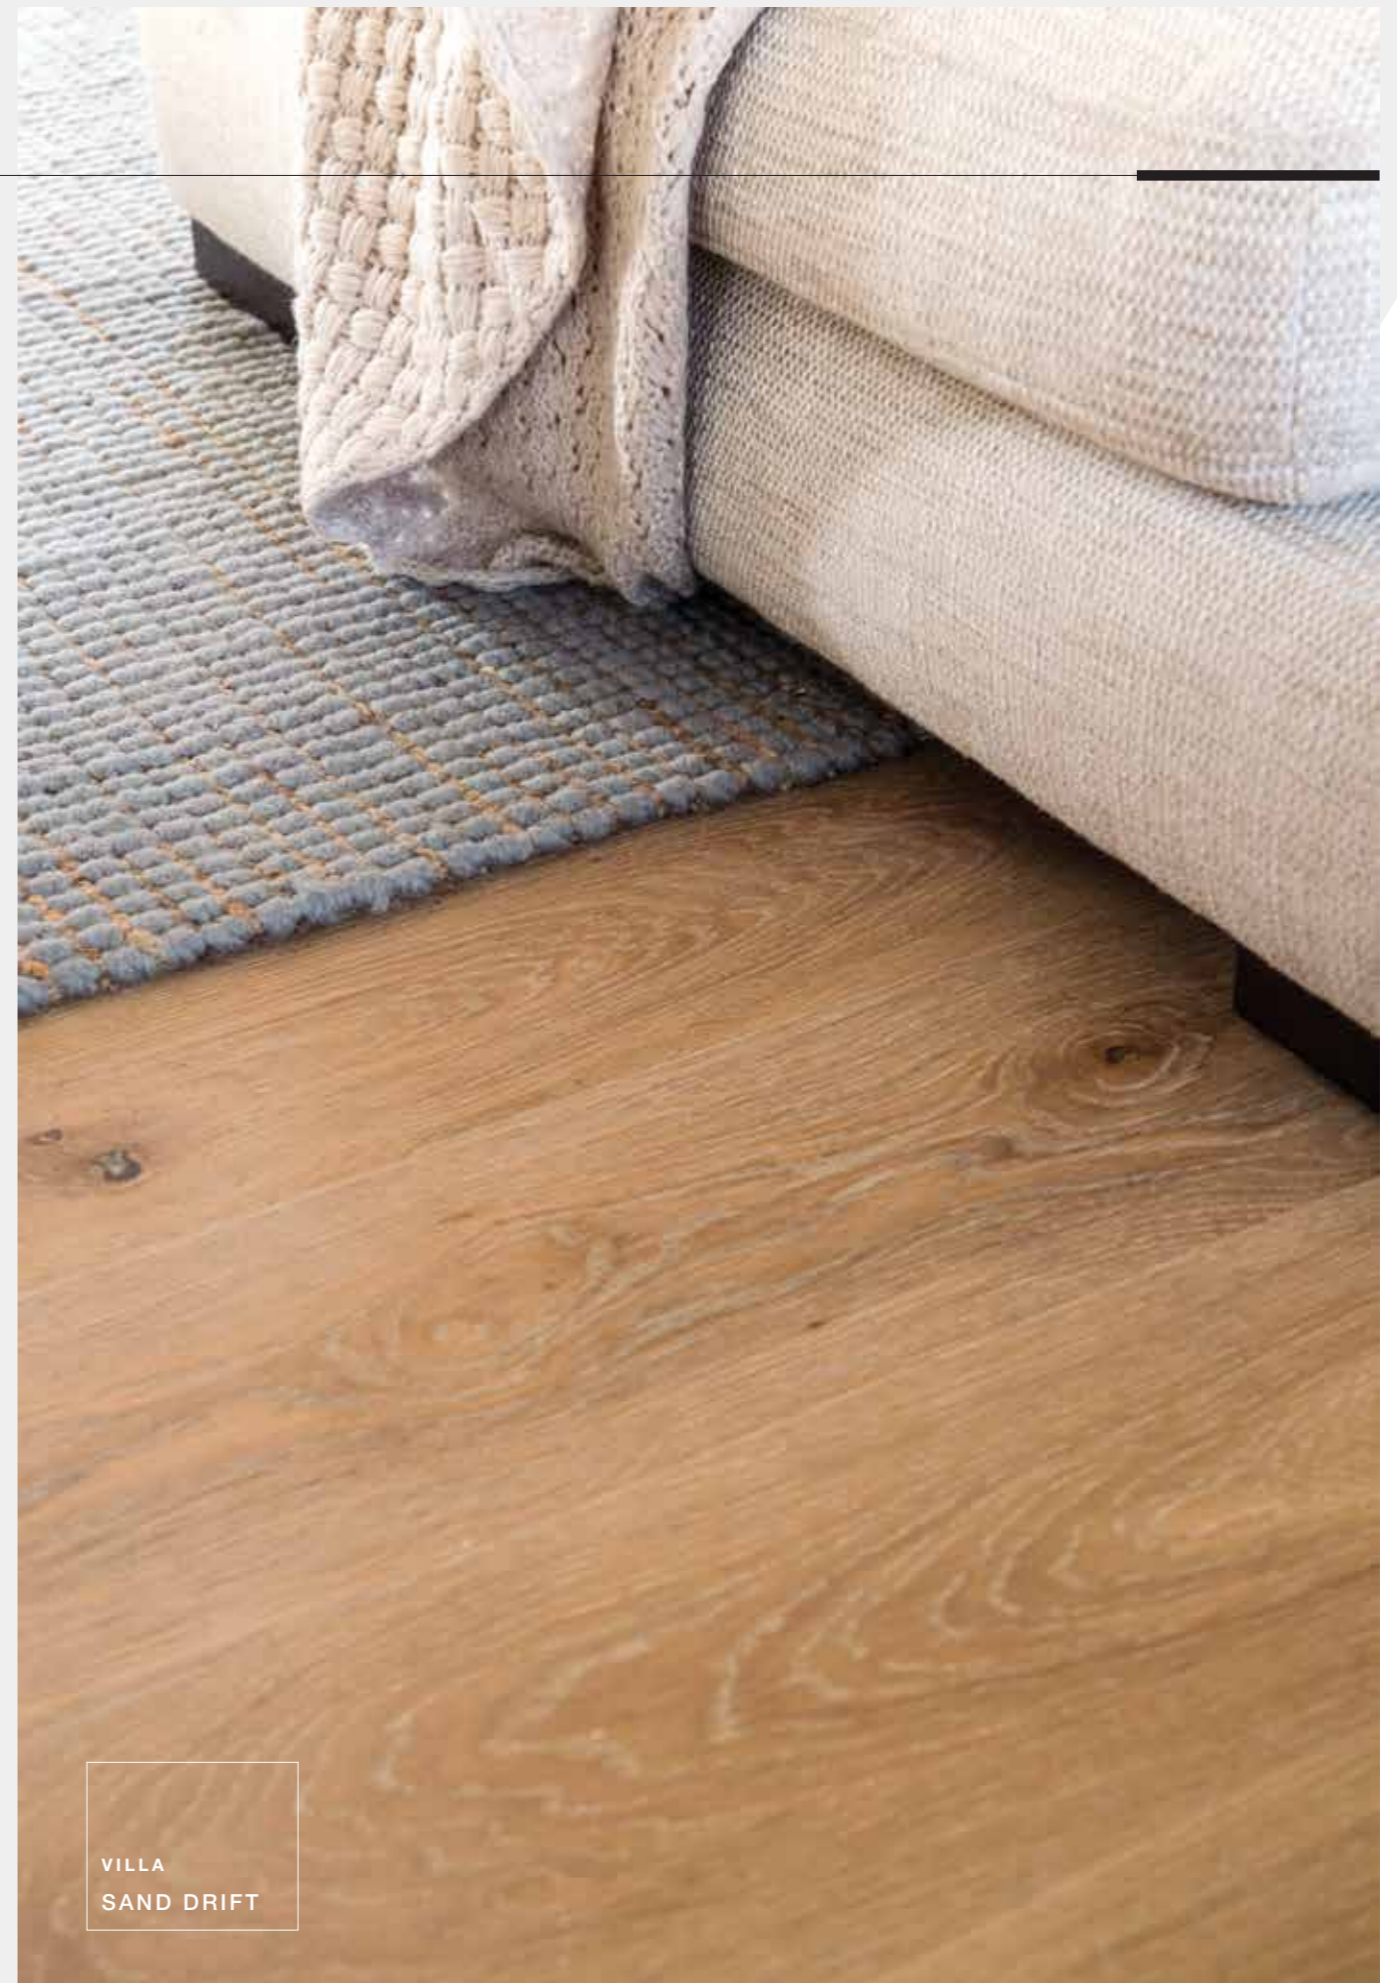

1. Wearguard® is a hardy 7 coat Polyurethane system that protects your Godfrey Hirst timber floor from everyday wear and tear.
2. A hardwood top of timber provides a unique look depending on the species selected.
3. A Hevea core (made from rubberwood) runs in the opposite direction to the hardwood top for greater stability.
4. A bottom balancing layer runs in the same direction as the hardwood top for grounding stability.

5G Insta Clic®

All Godfrey Hirst Engineered Timber ranges feature the 5G Insta Clic® system, which allows for fast, simple installation. In one single action, the boards snap and lock together with greater strength and stability. No glue or nails are required so you can install and walk on your floor the same day.
